

Galvanic Post-Anthropic State Enhancement (GPASE)

A thesis proposal to the Research Assessment Committee
of the Biomedical Laboratory at the University of Ingolstadt

By Victor Frankenstein, Esq.

Presentation to the learned professors and kind gentlemen
Krempe (natural philosophy), Waldman (chemistry), and Böhm (?)

March 15, in the year of our Lord 20--

Introduction

Herr Victor Frankenstein

University of Ingolstadt Doctoral Candidate 20-- (hopefully)

Assessment of Current Research

Philosopher's Stone (PS) = Elixir of Life (EOL)

Cornelius Agrippa

Albertus Magnus

Paracelsus

Key Objectives and Critical Success Factors

- Creation of a sensitive and rational animal
- Be like Archangel who aspired to omnipotence, but not chained to Eternal Hell (EH)
- Conceive idea and execute creation of a Man through vivid imagination and intense powers of analysis and application
- Trod Heaven in my thoughts, exult in my powers, burn with the ideas of their effects
- Graduate, make lots of money, win back Elizabeth
- Not throw away in useless grief those talents that might be useful to my fellow creatures
- Not rank myself with the herd of common projectors

Proposed Research Methodology

PHASE 1

Collect raw materials

Potential sources: Charnel houses, graves, dissecting rooms, Chinese restaurants

PHASE 2

?

PHASE 3

Demonstration of galvanic post-anthropoc state enhancement (GPASE)

Expected Outcome

*Stature - Gigantic (about eight feet in height)
proportionally large*

Skin - Yellow, covering the muscles and arteries beneath

Hair - Lustrous black, flowing

*Face - Jaundiced complexion, teeth of pearly whiteness,
straight black lips, "ruggedly handsome"*

Socioeconomic Benefits

- Utility of mobile decreased for the service industry
- Lovable team mascot for FC Ingolstadt 04
- Caregiver for children and the elderly
- Artificial intelligence (AI) innovation supercluster initiative
- Keep me employed

Conclusion

- **Must continue forward, for without my work – without my *science* – I have no tale (or money, or life, or companionship...)**
- **Laws of Heaven and Earth (LHE) remain to me secrets that I absolutely must divine**
- **Never will I give up my research until I perish**
- **Ecstasy to join departed friends, who even now prepare me for the reward of my tedious toil and horrible pilgrimage**
- **Seek happiness not in tranquillity, but in ambition**
- **Agony is still superior, for the bitter sting of failure will not cease to rankle in my wounds until Death shall close them forever**
- **Where are my trousers?**

WE SHALL BE MONSTERS
